From the Field

In 2015, Arkansas farmers harvested more than 3.1 million acres of soybeans, valued at more than \$1.5 billion.

Arkansas ranks 3rd in the nation for turkey production, raising 28 million turkeys last year. Turkeys are the 4th largest consumer of soybean meal in the U.S., consuming more than 2 million tons of soybean meal in 2014.

Arkansas ranks 4th in the nation for soybean usage. That includes our pork industry, where nearly 2 million swine consume soybean meal every day thanks to its high protein content.

Arkansas ranks in the top 12 in the nation for calf production with a cattle inventory totaling 1.6 million head. In 2014, beef cattle consumed about 1.4 million tons of soybean meal in the U.S.
